Butler-Turpin State Historic House

This fine country home built in 1859 is a place of remembrance for one of Kentucky's foremost military families from colonial times, through the revolution, the War of 1812, the Mexican War and the great Civil War. Original family pieces include portraits, rare military documents, books, furniture and objects.

Costumed tour guides interpret lifestyles, military history and the contributions of the slaves who lived and worked at the farm known as Butler Hill. Visit the historic house, summer kitchen, family cemetery and archaeological sites of the log house and slave quarters.
